

# Certificate of Completion

This is to certify that

**Ryan Lou Bacus**

has successfully completed 60 hours of professional development by  
finishing the 8-week online training course on

## Power BI Masterclass Certification

completed online on May 20, 2023.

Throughout this specialization, learners develop advanced skills in Data Analytics Power BI. Upon completing this specialization, learners can design sophisticated and professional dashboard. Learners have acquired the skills to data cleaning and transformation from datasets and extract information effectively using Power Query, data modeling, performing complex calculations, and conducting advanced data analysis using Data Analysis Expressions (DAX), data visualization & storytelling with data, and dashboard design. By acquiring these proficiencies, the learner is now well-prepared for data analysis workflow to provide data-driven insights.
